

Limited Warranty For Solar Modules

30 Years Limited Warranty for PV Modules 2025

For the all Photovoltaic Solar Modules (MODULES) produced by Powitt shall guarantee their material, workmanship and performance started from the date of first installation (for their own use) or at the date at latest 12 months after the PV modules were dispatched from Powitt factory, whichever occurs earlier(the WARRANTY START DATE).

1. Limited Product Warranty - 15 Years Repair, Replacement or Refund Remedy

Powitt guarantees its Photovoltaic Solar Modules (MODULES), including factory-assembled DC connectors and cables, if any, to be free from defect in materials and workmanship under normal application, installation, and use and service conditions. If MODULES fail to conform to this warranty, during the period of fifteen (15) years from the WARRANTY START DATE, Powitt will, at its option, either repair or replace the product, or refund the then current market price of the MODULES. The repair or replacement or refund remedy shall be the sole and exclusive remedy provided under the "Limited Product Warranty" and shall not extend beyond the period set forth herein. This "Limited Product Warranty" does not warrant a specific power output, which shall be exclusively covered under clause 2 hereinafter ("Limited Peak Power Warranty").

2. Limited Peak Power Warranty - Limited Remedy

2.1 5 years

If, for a period of Five (5) years from the Warranty Start Date, any MODULE(s) exhibits a power output less than 95% of the nominal power as set out in Powitt product datasheet, provided that such loss in power is determined by Powitt (at its sole and absolute discretion) to be due to defects in material or workmanship, Powitt will, at its sole option, either (1) replace such loss in power by either, at Powitt sole option, (a) providing additional MODULES to the CUSTOMER to make up for such loss in power or (b) replacing the defective MODULE(s) or (2) refund the percentage of the cost of the MODULE (as measured by the then current market price of the MODULE) to the CUSTOMER representing the percentage of the power output less than 95% of the nominal power as set out as specified in Powitt product datasheet.

2.2 15 years

If, for a period of fifteen (15) years from the Warranty Start Date, any MODULE(s) exhibits a power output less than 90% of the nominal power as set out in Powitt product datasheet, provided that such loss in power is determined by Powitt (at its sole and absolute discretion) to be due to defects in material or workmanship, Powitt will, at its sole option, either (1) replace such loss in power by either, at Powitt sole option, (a) providing additional

MODULES to the CUSTOMER to make up for such loss in power or (b) replacing the defective MODULE(s) or (2) refund the percentage of the cost of the MODULE (as measured by the current market price of the MODULE) to the CUSTOMER representing the percentage of the power output less than 90% of the nominal power as set out as specified in Powitt product datasheet.

2.3 18 years

If, for a period of Eighteen (18) years from the Warranty Start Date, any MODULE(s) exhibits a power output less than 85% of the nominal power as set out in Powitt product datasheet, provided that such loss in power is determined by Powitt (at its sole and absolute discretion) to be due to defects in material or workmanship, Powitt will, at its sole option, either (1) replace such loss in power by either, at Powitt sole option, (a) providing additional MODULES to the CUSTOMER to make up for such loss in power or (b) replacing the defective MODULE(s) or (2) refund the percentage of the cost of the MODULE (as measured by the then current market price of the MODULE) to the CUSTOMER representing the percentage of the power output less than 85% of the nominal power as set out as specified in Powitt product datasheet.

2.4 30 years

If, for a period of Thirty (30) years from the Warranty Start Date, any MODULE(s) exhibits a power output less than 80% of the nominal power as set out in Powitt product datasheet, provided that such loss in power is determined by Powitt (at its sole and absolute discretion) to be due to defects in material or workmanship, Powitt will, at its sole option, either (1) replace such loss in power by either, at Powitt sole option, (a) providing additional MODULES to the CUSTOMER to make up for such loss in power or (b) replacing the defective MODULE(s) or (2) refund the percentage of the cost of the MODULE (as measured by the then current market price of the MODULE) to the CUSTOMER representing the percentage of the power output less than 80% of the nominal power as set out as specified in Powitt product datasheet.

3. Exclusions and Limitations

3.1 In any event, all warranty claims must be received within the applicable warranty period for this warranty to be effective.

3.2 The "Warranties" do not apply to any MODULES which have been subjected to:
Misuse, abuse, neglect or accident;
Alteration, improper installation or application;
Non-observance of Powitt installation and maintenance instructions;
Repair or modifications by someone other than an approved service technician of Powitt;
Power failure surges, lightning, flood, fire, accidental breakage or other events which outside Powitt control.

3.3 "Warranties" do not cover any costs associated with installation, removal or re-installation of the PV-modules and (except as explicitly set forth in the final paragraph of Section 5) customs clearance or any other costs for return of the MODULES.

3.4 Warranty claims will not be honored if the type or serial number of the MODULES have been altered, removed or made illegible.

4. Limitation of Warranty Scope

These "Limited Warranties for PV Modules" as set forth herein are expressly in lieu of and exclude all other express or implied warranties, including but not limited to warranties of merchant ability and of fitness for particular purpose, use, or application, and all other obligations or liabilities on the part of Powitt, unless such other obligations or liabilities are expressly agreed to in writing signed and approved by Powitt. Powitt shall have no responsibility or liability whatsoever for damage or injury to persons or property, or for other loss or injury resulting from any cause whatsoever arising out of or related to the MODULES, including, without limitation, any defects in the MODULE, or from use or installation. Under no circumstances shall Powitt be liable for incidental, consequential or special damages, howsoever caused. Loss of use, loss of profits, loss of production, and loss of revenues are specifically and without limitation excluded. Powitt aggregate liability, if any, in damages or otherwise, shall not exceed the invoice value as paid by the CUSTOMER, for the single unit of MODULE.

5. Obtaining Warranty Performance

If the CUSTOMER has a justified claim covered by this "Limited Warranties for PV Modules", an immediate notification directly to Powitt shall be filed by mailing a registered letter in writing to the address of Powitt listed hereunder, or, sending an email letter to the email account of Powitt listed hereunder. Together with the notification, the CUSTOMER should enclose the evidence of the claim with the corresponding serial number of the MODULE(s) and the date on which the MODULES have been purchased. An invoice with clear indication of the purchase date, purchase price, module type, stamp or signature of Powitt or its distributors should also be submitted as part of the evidence.

The return of any PV-modules will not be accepted unless prior written authorization has been given by Powitt. Powitt shall reimburse CUSTOMER for reasonable, customary and documented transportation charges by sea freight for both the return of the MODULES and reshipment of any repaired or replaced MODULES, only if this cost is authorized by Powitt customer service department.

6. Severability

If a part, provision or clause of this "Limited Warranty for PV Modules" , or the application thereof to any person or circumstance, is held invalid, void or unenforceable, such holding shall not affect and shall leave all other parts, provisions, clauses or applications of this "Limited Warranty for PV Modules" , and to this end such other parts, provisions, clauses or applications of this "Limited Warranty for PV Modules" shall be treated as severable.

7. Disputes

In case of any discrepancy in a warranty-claim, a first-class international test-institute such as Fraunhofer ISE in Freiburg/ Germany, TÜV Rheinland in Cologne/ Germany or ASU Arizona State University shall be involved to judge the claim finally. All fees and expenses shall be born by the losing party, unless otherwise awarded. The final explanation right shall be borne by Powitt.

8. Various

The repair or replacement of the MODULES or the supply of additional MODULES does not cause the beginning of new warranty terms, nor shall the original terms of this "Limited Warranty for PV-Modules" be extended. Any replaced MODULES shall become the property of Powitt made for their disposal. Powitt has the right to deliver another type (different in size, color, shape and/or power) in case Powitt discontinued producing the replaced MODULES at the time of the claim.

9. Warranty Transfer

This warranty is transferable when the product remains installed in its original installation location.

10. Force Majeure

Powitt shall not be responsible or liable in any way to the customer or any third-party arising from any non-performance or delay in performance of any terms and conditions of sale, including this "Limited Warranty for PV Modules", due to acts God, war, riots, strikes, warlike conditions, plague or other epidemics, fire, flood, or any other similar cause or circumstance beyond the reasonable control of Powitt. In such cases, performance by Powitt of this Limited

Warranty shall be suspended without liability for the period of delay reasonably attributable to such causes.

11. Validity

This "Limited Warranty for PV Modules" is valid for all MODULES dispatched from Powitt factories between 1st January 2025 to 31st December 2025.

"Nominal Power in Datasheet" is the power in Watt peak that a PV-module generates in its Maximum Power Point under STC condition. "STC" are as follows:

(a)light spectrum of AM 1.5, (b)an irradiation of 1000W per m² and (c)a cell temperature of 25 degrees centigrade at right angle irradiation. The measurements are carried out in accordance with IEC 61515 as tested at the connectors or junction box terminals – as applicable – per calibration and testing standards of Powitt valid at the date of manufacture of the PV-modules.
