

K Series Fingerprint Lock

FEATURES

Fingerprint	Password	Mechanical Key	LED display
Lifting the Lever to lock the door	Low Voltage Warning	Zinc Alloy Composites	Security Linkage
Emergency supply	Dustproof Slide cover	Check historical recorded(Optional)	

TECHNICAL PARAMETERS

Product parameters	Technical specifications
N.T.Weight	4.3kg
Measurement(mm)	W72*H77*L315mm
Unlock	Fingerprint, Password, Mechanical Key
Max. fingerprint capacity	100pcs(Could be extended to 240pcs)
Optical sensor with high resolution	500dpi
Verification Time	≤1S
False rejection rate	≤1%
False acceptance rate	≤0.0001%
Verification Angle	360°C
Power supply	International standard batteries,8*1.5V alkaline batteries
Static current	20 μ A
Dynamic current	≤180MA
Working temperature	- 20°C~55°C
Working humidity	Rh≤93%
