

L Series Fingerprint Lock

FEATURES

Fingerprint	Password	Mechanical Key	LED display
Lifting the Lever to lock the door	Low Voltage Warning	Security Linkage	Leather surface
Emergency supply	Dustproof Slip-on cover	Zinc Alloy Composites	Check historical recorded(Optional)

TECHNICAL PARAMETERS

Product parameters	Technical specifications
N.T.Weight	4.2kg
Measurement(mm)	W75*H73*L312mm
Unlock	Fingerprint、Password、Mechanical Key
Max. fingerprint capacity	100pcs(Could be extended to 240pcs)
Optical sensor with high resolution	500dpi
Verification Time	<1s
False rejection rate	≤1%
False acceptance rate	≤0.0001%
Verification Angle	360°
Power supply	International standard batteries, 8*1.5V alkaline batteries
Static current	≤20 μA
Dynamic current	≤180mA
Working temperature	-20 Celsius degrees to 55 Celsius degrees
Working humidity	RH (20~93) %
