

Rail Extension Kit 1056mm
Suitable for doors of up 3450mm
Installation Instructions

Dismount opener if necessary (please refer to opener's Instruction Manual)

1. Remove Tensioner Bracket ⑤ from Product ① (if necessary)
2. Fit the 1056mm Extension Rail ③ to the Product ① using the Rail Joiner ② provided;
3. Connect the extension kit Chain ⑨ to the product chain using Chain Link ⑪. Insert the Chain Sleeve ⑩ onto the Chain ⑨. Please be aware of the direction of the Chain Sleeve ⑩;
4. Insert the Hanging Bracket ⑧ onto the extension piece or further (if needed) and move it to a position suitable for mounting. Best position would be the middle between original hanging bracket and wall bracket;
5. Use the Fixing Bracket ④ and its fasteners to fix the Hanging Bracket ⑧ to the ceiling.

Chain link must be assembled in the direction shown.
