

## WGL106 Residual Current Circuit Breaker

WGL106 2P

WGL106 4P

### Application

WGL106 is suitable for cutting off the fault circuit immediately on the occasion of shock hazard or earth leakage of trunk line. It is suitable to avoid the shock hazard and fire caused by earth leakage. It is mainly suitable to use in variety of plants and enterprises, building, construction, commerce, guesthouses and families.

### Technical Specification

Poles	2P, 4P
Rated voltage(Ue)	2P 230V, 4P 230/400V
Rated current(In)	16, 25, 40, 63A
Rated short-circuit break capacity(I <sub>nc</sub> )	6KA
Leakage motion current(I <sub>Δn</sub> )	30,100,300mA
Leakage dead current(I <sub>Δno</sub> )	I <sub>Δno</sub> =0.5I <sub>Δn</sub>
Leakage motion time	≤ 0.1s

### Configuration and Mounting Dimensions
