

## **Description & Features**

SPHD1203-04CBR is an uninterruptible PSU with 4 output channels, its main output is 12.3V / 3A, while it also provides maximum 400mA charge current. It could be used for CCTV Surveillance / Access Control / Fire Alarm and other security systems.

- High efficiency up to 84%, long life and high reliability
- Protection: input fuse / overload / over voltage / short circuit
- Multifunction LED indicators
- No delay battery boot up
- 100% full load burn-it test
- Metal box with key-lock, wall mount installation
- Withstand 5G vibration test
- 2 years warranty

## SPECIFICATION

| INPUT            | Voltage Range                  | 190 - 240VAC   |  |  |
|------------------|--------------------------------|--|--|--|
|                  | Frequency Range                | 50 - 60Hz  |  |  |
| OUTPUT           | Voltage (AC Mode)              | 12.3V ±2%  |  |  |
|                  | Voltage (Battery<br>Mode)      | Same as battery voltage  |  |  |
|                  | Rated Current                  | 3A   |  |  |
|                  | Rated Power (Max.)             | 44W (with 400mA charge current)  |  |  |
|                  | Efficiency (Typ.)              | >84%   |  |  |
|                  | Ripple & Noise                 | <120mVp-p  |  |  |
|                  | Output Channel                 | 4 channels with 1A glass fuse per channel.                               |  |  |
| CHARGING         | Voltage                        | 12.3V ±2%  |  |  |
|                  | Current                        | 400mA (max.)   |  |  |
|                  |                                | Constant Current Charging.   |  |  |
|                  | Input                          | 2A / 250VAC fuse   |  |  |
|                  | Overload                       | 3.5A ±5%   |  |  |
|                  |                                | Hiccup mode, recovers automatically after fault condition is removed.    |  |  |
| PROTECTION       | Over Voltage                   | 16V ±5%  |  |  |
|                  |                                | Hiccup mode, recovers automatically after fault condition is removed.    |  |  |
|                  | Battery Low Voltage            | 10V ±2%  |  |  |
|                  |                                | PSU shuts down until AC power recovers.                                  |  |  |
|                  | Short Circuit                  | Hiccup mode, recovers automatically after fault condition is removed.    |  |  |
|                  | Temperature                    | Working: -20 - 45°C  | Storage: -30 - 80°C                    |  |
| ENVIRONMENT      | Humidity                       | Working: 20 - 80%RH  | Storage: 10 - 90%RH                    |  |
|                  | Green                          | On   | AC power is on                         |  |
|                  | Blue                           | On   | DC output is on                        |  |
| LED<br>INDICATOR | Red                            | On   | Battery under-voltage                  |  |
|                  | Yellow                         | Off  | Battery is discharging                 |  |
|                  |                                | Flickering   | Battery is charging                    |  |
|                  |                                | On   | Battery is fully charged or no battery |  |

## **RELAY ALARM**

| ALARM OACR | NO - COM | On | When AC power is on              |
|------------|----------|----|----------------------------------|
|            | NC - COM | On | When AC power is off             |
| ALARM BLVR | NO - COM | On | When battery voltage > 11V       |
|            | NC - COM | On | When 10V < battery voltage < 11V |
