Company Introduction

SNY valve, with its head office in Yancheng (300km northwest to Shanghai China), was founded in 2003. SNY’s facilities cover total 150,000 square meters, include three factories and one foundry. With rapid improvement on both technical and quality, SNY is now one of the leading Chinese valve manufacturers for Oil, Gas, Refinery, Chemical and Power plant Industry.

SNY has a global market strategy, beginning with the base manufacturing facility in China, SNY has established long-term cooperative relations with many large enterprises worldwide, and has been approved by many end users and EPC companies. Our products have been exported to more than 30 countries and regions including middle east, Europe, America, Asia, Africa, etc.

SNY’s products include: Gate, Globe, Check, Ball and Butterfly Valves with size 1/4”~160” and pressure rating ANSI Class150lb~2500lb; materials range from conventional cast or forged steel to special alloy material like Monel, Inconel, Hastelloy or Duplex steel. SNY is able to produce valves for working temperature –196℃~ 650℃, all are available to comply with ASTM, ANSI, API, BS and DIN standards individually.

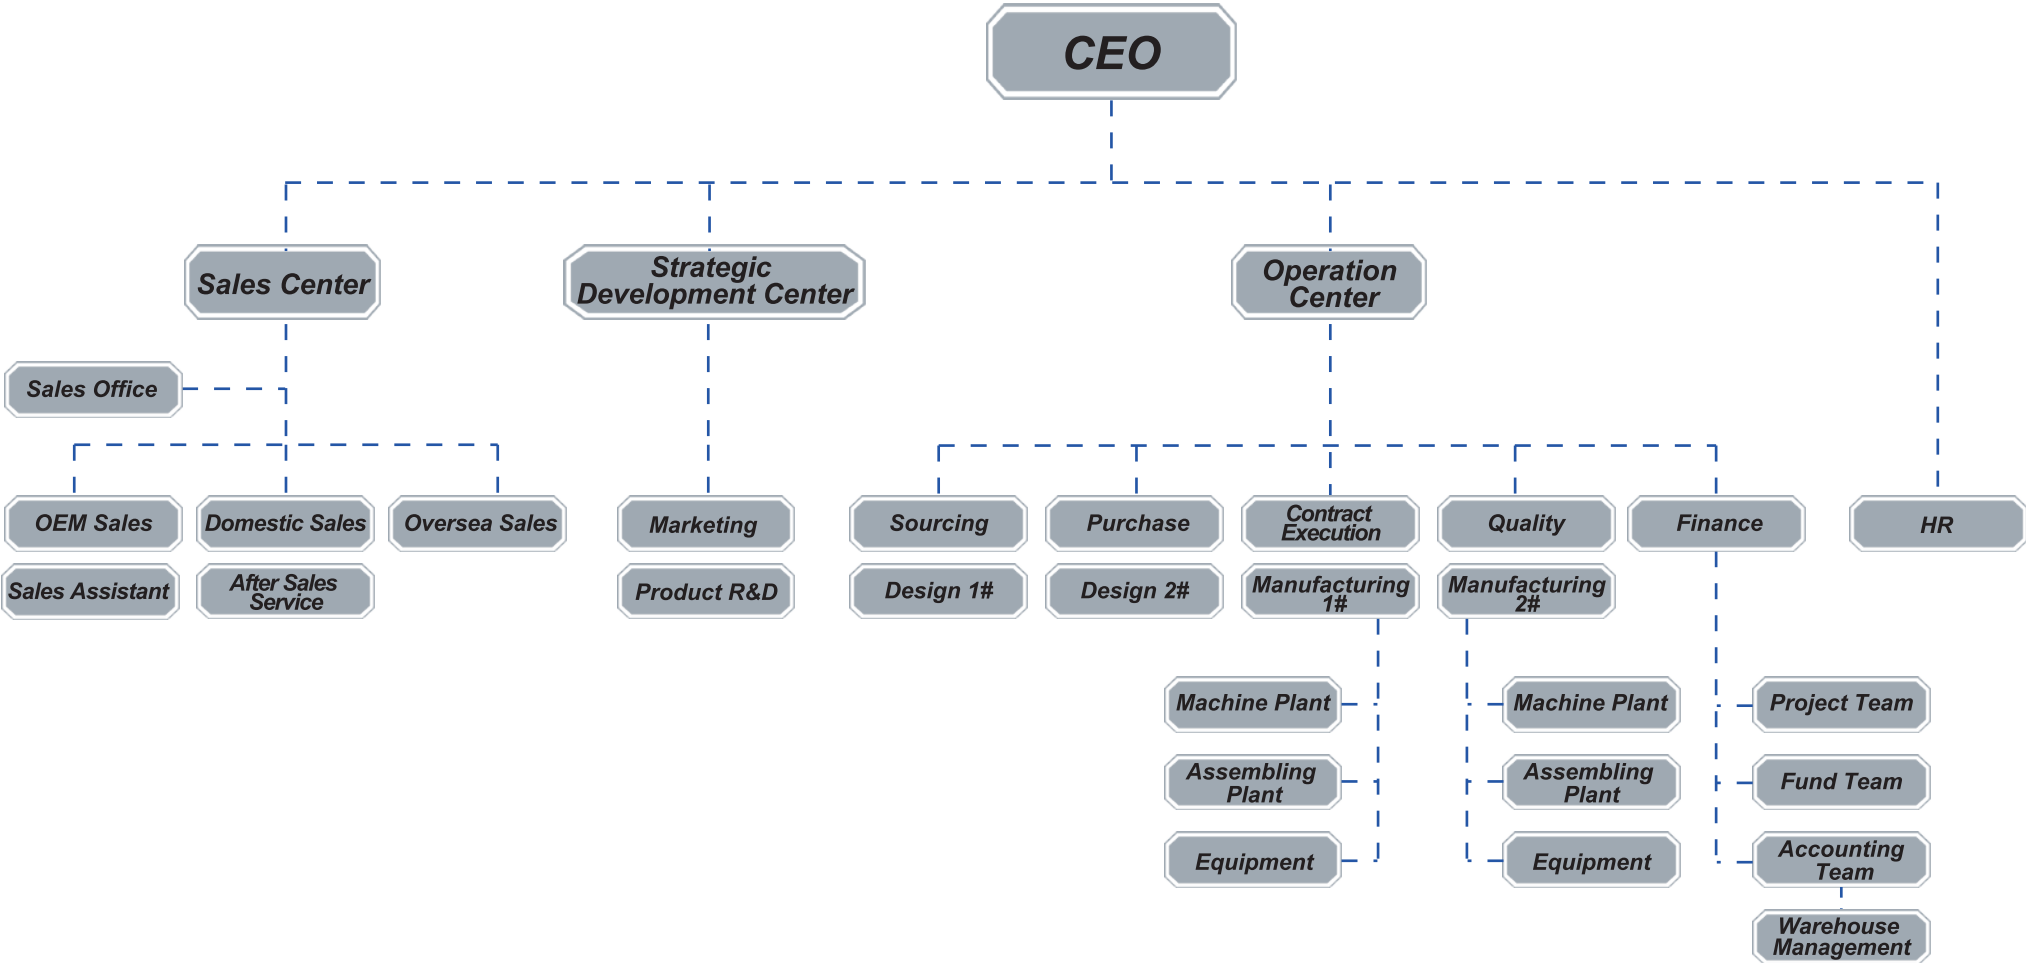

SNY quality assurance culture is to pursuit a zero defect valve, this has resulted in having more quality qualification than most of our competitors.

SNY will continue to improve our valve manufacturing technology and products quality as well as to offer competitive price and on time delivery to all our clients from End User, Engineering, Contractor and Stockiest.

Organization

Facilities

Established in 2003
Area: 34,000m²
Located in Tinghu District,
Yancheng City.

HEADQUARTERS

Facilities

Established in 2008
Area: 58,000m²
Located in Yancheng E&T
Development Zone, Yancheng City.

THE SECOND FACTORY

Facilities

Established in 2023
Area:53,333m²
Located in Yancheng E&T
Development Zone, Yancheng City.

NEW PLANT

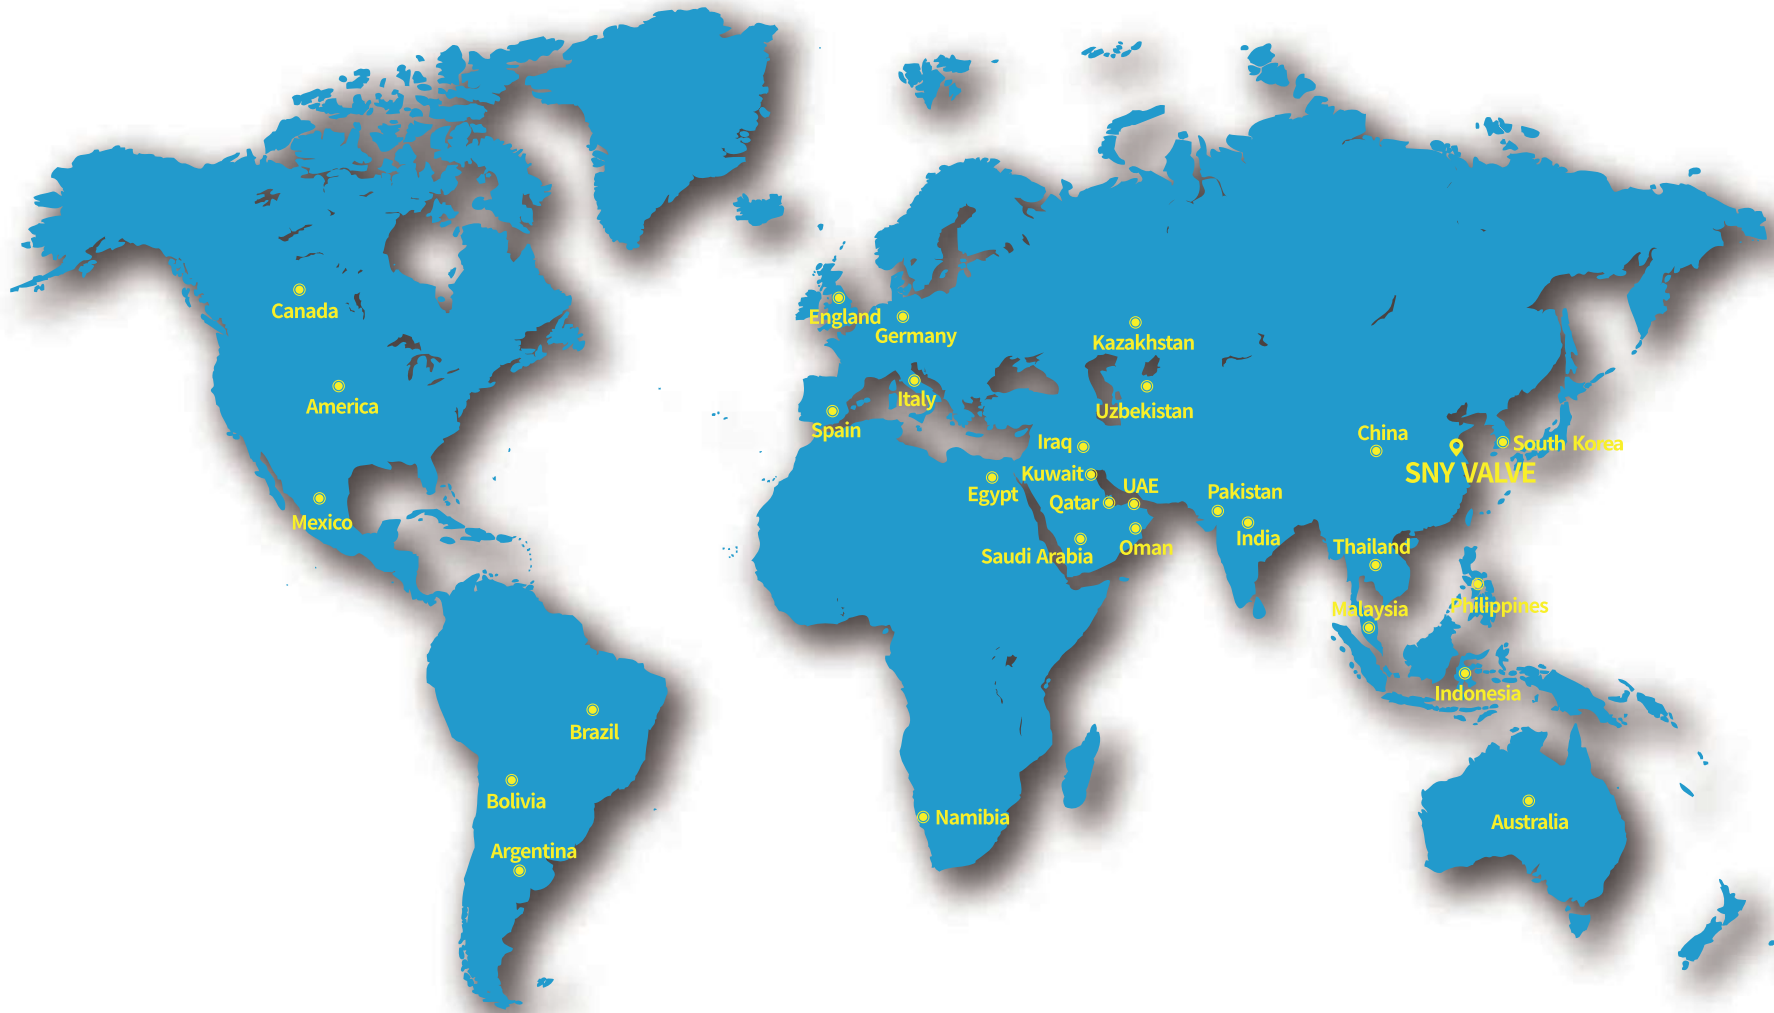

Strategic Development Center
Responsible for Global Marketing Promotion
and Technical Innovation
Located in Suzhou

STRATEGIC DEVELOPMENT CENTER

Global Marketing

SNY VALVE has established long-term cooperative relations with large enterprises at home and abroad, and has been approved by many end users and EPC companies. Our products have been exported worldwide including countries and regions of Middle East, Europe, America, Asia, Africa, etc.

Product & Application

Product Overview
Industry Solutions

Product Overview

Marine Engineering and Ships

Petrobras FPSO project
Supply Time: 2020
Products: Double Ball Valve

Oil and Gas Production

Petroleum Development Oman (PDO) Oil Well Project
Supply Time: 2020
Products: HP Globe Valve

Oil and Gas Field Construction

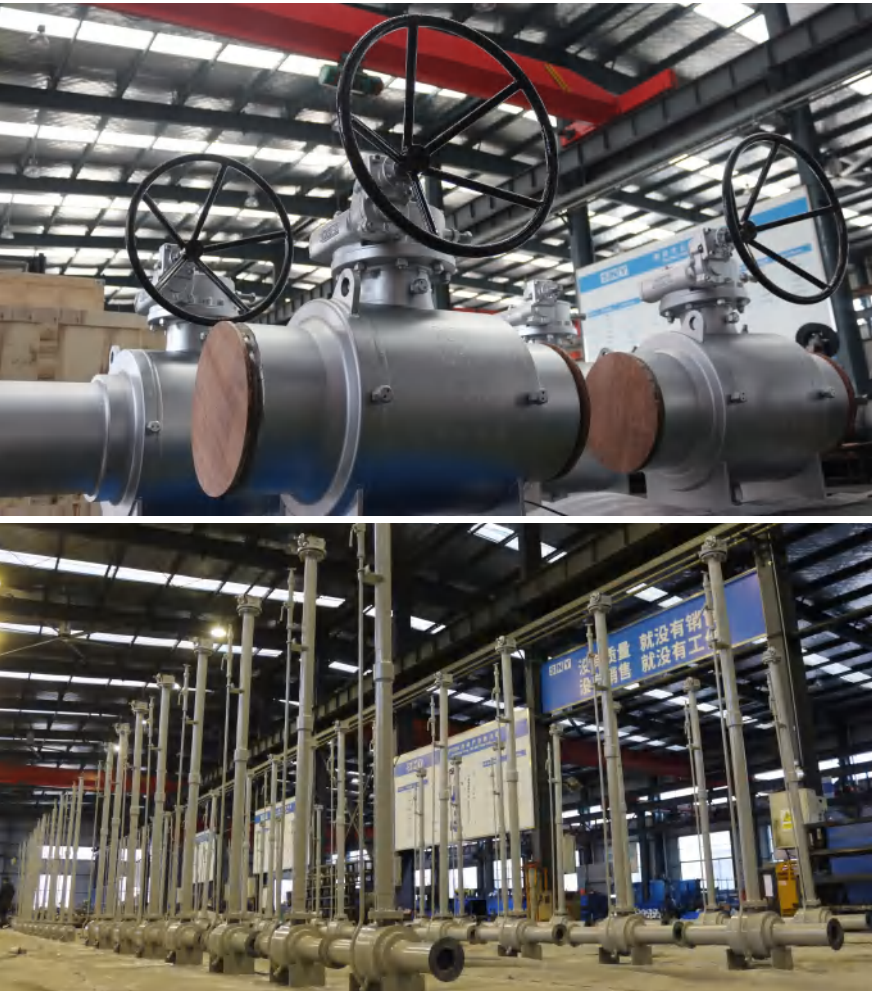

China Petroleum & Chemical Corporation Northwest Oilfield Branch
K22107D001/003/004 Shunbei Oil and Gas Field
Supply Time: 2022
Products: Slab Gate Valve as per NACE MR0175/ISO15156

Oil and Gas Pipeline

Urban Gas Transmission Project in India
Supply Time: 2020-2021
Products: Full Welded Ball Valve

LNG

LNG Receiving Station Project at Langfang City

Supply Time: 2018

Products: Cryogenic Valve

Air Separation

Integrated Refining and Chemical Project at Gulei City, Fujian Province

Air Separation and Compression Equipment

Supply Time: 2020

Products: Gate Valve / Globe Valve / Check Valve

Refining

Zhenhai / Zhongke / Gulei Integration / Hengli 20 million Tons Integration /
BASF Smart Verbund Project/Kuwait Oil Company (KOC)
Supply Time: 2019-2023
Products: Actuated GGC / Ball and Butterfly Valve

Coal Chemical Industry

1.7 Million Tons / Year Coal-to-methanol and Olefin Conversion Project of
Zhongan United Coal Chemical Co., Ltd.
Supply Time: 2019
Products: Pneumatic Actuated Valve

Fine Chemicals

Phase I 50,000 Tons per Year of High-purity Polysilicon Project of Ningxia Runyang Silicon Material Technology Co.,Ltd.
Supply Time: 2022
Products: Electric Actuated Ball/Gate Valve

Power and Energy Industry

Sinopec Anqing Branch Thermal Power Project
Supply Time: 2019
Products: Pressure Seal Valve

Quality Assurance

| Meet The Best | Leading Technology Solutions For Engineering Valves | Meet The Best |

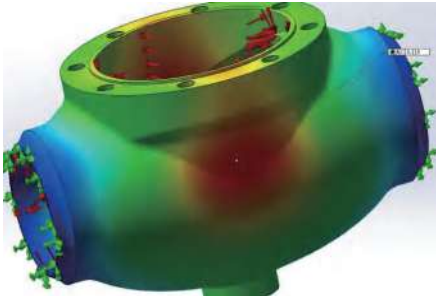

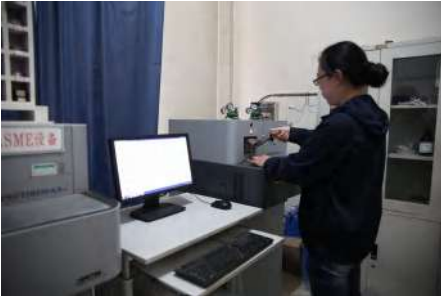

R+D+I

We are equipped with the most modern installations and a highly-qualified human team, enabling us to offer the widest possible range of valves combining high standards in technology, quality and productivity, as well as tradition, experience and dependability, with an unrivalled reputation for quality and service.

- Latest CAD/3D/FEA design system.
- Seismic Calculations, Flow Simulations, Mechanical Analyses and Thermal Simulations by FEA (Finite Element Analysis), for optimizing our valve design performance.
- New materials and technology research.

90+ Technical R&D Personnel

Production Capacity

Ball Valve Max. 60"

Butterfly Valve Max. 160"

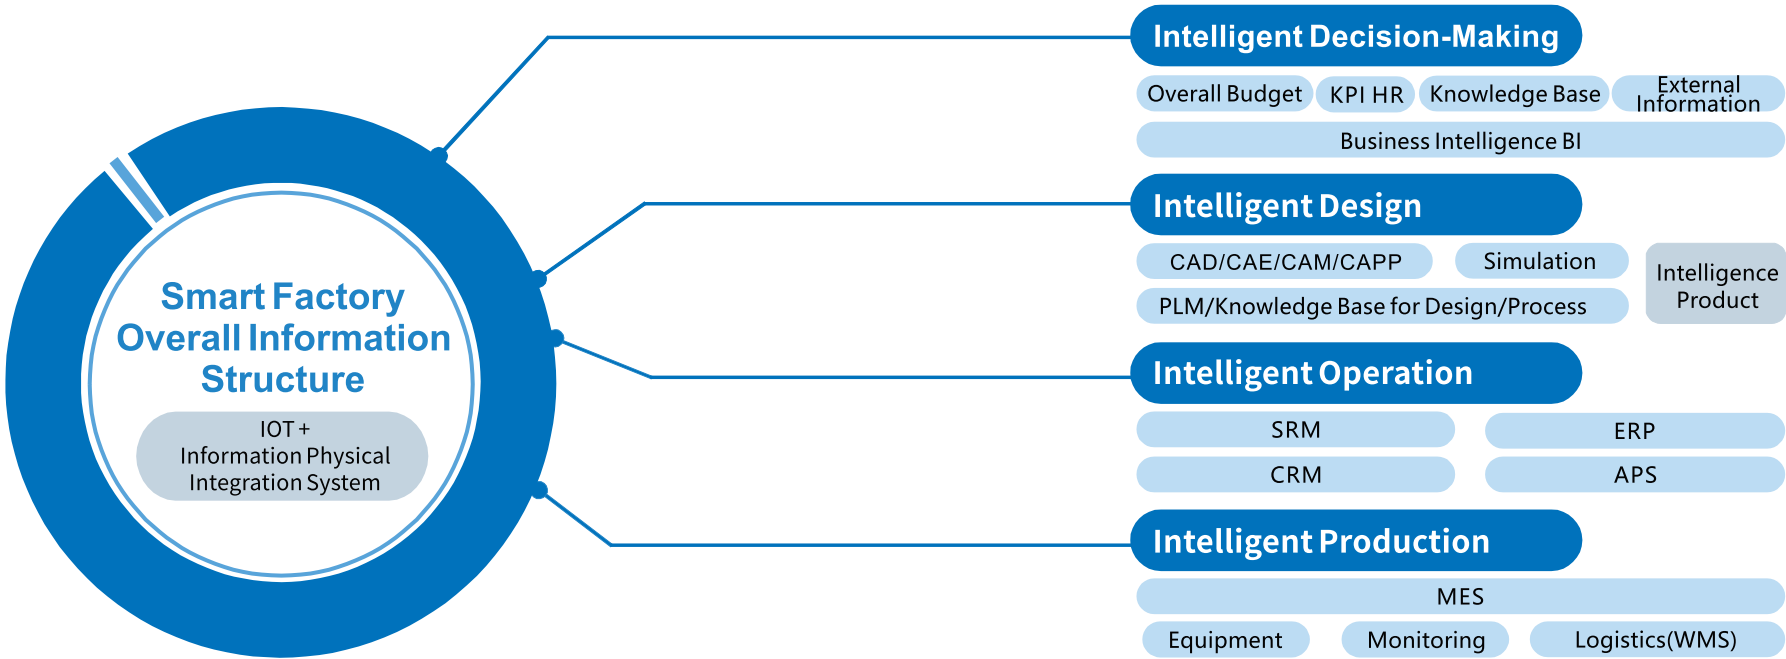

Gate Valve Max. 60"

Globe Valve Max. 24"

Check Valve Max. 60"

Quality Culture

Supplier Management

In order to meet customized order requirements, SNY seeks high-quality suppliers worldwide. SNY has been working on optimizing its supply chain. Relying on efficient information management system, SNY has realized paperless procurement, hierarchical management of suppliers, real-time control of suppliers' quality and perfect balance between speed and quality.

Quality Culture

As an International company, SNY always benchmarks against the best enterprises in the world, learns and exchanges management experience with international end users and engineering companies. This is also the endless motivity for us to “Keep Improving Towards Zero Defects”.

Process Control

Every step from purchase order acknowledgment through procurement, NDE, machining, assembling, limit testing, painting and packaging is in accordance with regulations stipulated in ITP plans and all the processes are performed in house to meet customized order requirements. We are equipped with a highly-qualified human team, enabling us to offer top-class valves in accordance with higher standards than ASME、API、ISO. Management based on the strictest quality standards allows SNY to develop the product constantly.

Quality Assurance

30+International QMS certifications

Through continuous innovation and accumulation, we now have 115 authorized patents, including 35 invention patents and 60 utility model patents.

SNY Service

Pre-Sales
In Sales
After Sales

Product

With our outstanding team, SNY can provide various pre-sale technical & commercial services for customers:

- Valve Selection
- Interpretation & Sharing of International Valve Technical Specification
- Valve Technical Documentation Preparation Service.
- Strategic Cooperation Experience with Global Energy Giants
- One-Stop “Valve Supermarket” Supply Services

Pre-Sales

Pre-Sales

Once an order is confirmed, with the customized project management team, SNY can provide comprehensive services to customers based on their needs including project execution, document control and so on.

- Professional Project Management Team
- Customized Project Management Solutions
- 100% Contract Review & Output
- ITP Customized Approved ITP
- Smart Factory Software System
- Reliable Identification and Traceability System
- Inspection Experts always Available on Need

In Sales

In Sales

Maintenance experts from our after-sale service department are always at your side:

- 30+ Service Experts Globally
- 24/7/365 Hotline Response
- Massive MRO Components Inventory Available
- CNAS Laboratory Failure Analysis
- Synchronous On-site Dispatch for Large-scale Project Site
- 1-key, 1-second, 0-delay File Delivery

After Sales

After Sales

Sustainability

Driven by the mission of “To benefit other people and the world as well as ourselves”, SNY pursues sustainable management that brings richness and happiness to human life.

Corporate Sustainability Management Strategy System
In 2022, SNY established new ESG strategies to approach our corporate social responsibility with sincerity. This is part of our efforts to become a “Global Premier Valve Supplier” that creates the future with the best technology as well as “Meet The Best” that creates social value and opens up a better future.
