The king of All Construction works

Unmatched mobility and agility – built to conquer tight spaces with ease!

Powerful versatility and adaptability – over 100 attachments for any job site!

High-efficiency construction solutions – one machine, countless uses. Save time and effort!

Company Profile

Xuzhou Baode Transmission Technology Co., Ltd., founded in 2017, is a professional enterprise engaged in the production and sales of construction machinery and its accessories.

We boast an experienced professional manufacturing team, which currently undertakes the accessory business for major heavy machinery enterprises including XCMG Construction Machinery, XCMG Environmental Technology and XCMG Fire Protection.

In addition, we operate the self-owned business of complete machinery products such as micro and small excavators and skid steer loaders.

Our professional manufacturing team consists of 3 engineers, 2 senior technicians and 19 regular employees. Adhering to the craftsmanship spirit, we take it as our mission to deliver better and superior experience to customers.

Providing customized products for customers has been our long-term corporate feature. In 2025, the company obtained the ISO9001 Quality Management System Certification and the EU CE Certificate. Our products are exported to Europe, North America, Australia with continuous orders being secured.
