Secure your charging safety !

PORTABLE CHARGING PILE

Main Technical Parameters

Model	EP-132-T2	EP-116-T2
Design standard	EN/IEC 62752 EN/IEC 61851	
Rated input voltage	220VAC	
Rated output voltage	220VAC	
Rated charging current	32A	16A
Standby power consumption	<3W	
Working temperature/humidity	-30°C~+50°C /5%~95%	
Protection grade	IP66 (Control box)	
Safety protection	CP abnormal protection, overcurrent protection Overvoltage protection, undervoltage protection Leakage protection, over-temperature protection	
Insulation resistance	>10MΩ	
Dielectric strength	2000VAC/1min/≤10mA	
Impact withstand voltage	±2.0KV	
Service life	>10000 times	
Flame retardant grade	UL94-V0	
Storage temperature	-40°C ~+80°C	
Working altitude	<2000m
