Event Description:

The poster hyperlink: <https://mp.weixin.qq.com/s/TvzKDLEj4TepcrrBPDRzag>

Event Name: Defeat the "seeking death and waiting for death" theory of APS advanced planning and scheduling

Venue: online ; Event No. 24482 ; Date & Time: November 8, 2024; 15:00-16:00

Event Hours: 1.5h ; Professional Development Points: 1.5

Event Content

- Concept and positioning of APS
- The Five Great Mountains of APS
- Successful Path of APS
- Questions and Answers

Instructor Introduction

NanXiang Gao

- Gao Nanxiang graduated from the Mathematics Department of Tongji University and has been deeply involved in the digitalization field of manufacturing for 20 years. He has won multiple provincial and municipal technology innovation awards and is a special speaker at the World Statistics Conference.
- Gao Nanxiang is an expert member of the Enterprise Digitalization Working Committee of the China Information Association, a columnist for the magazine "Intelligent Manufacturing", and a special author for the magazines "Enterprise Digitalization" and "Management Observation".
- He has long been engaged in enterprise digitalization work at SAIC General Motors, a benchmark enterprise in the domestic automotive industry, and later joined Shanghai Shuce Software to help many benchmark enterprises in segmented industries achieve business value enhancement.
- The IDEAS supply chain planning software product, which he led the development of, has a market share of over 25% in the entire vehicle industry and over 45% in the domestic brand market. It has been successfully implemented in many benchmark enterprises in the pan manufacturing industry and achieved a continuous usage rate of 100% after one year.
