Instructor Introduction

Kehua Shen

Associate Professor, Shanghai University of International Business and Economics

She was engaged in the import and export business of marine equipment before entering the university and has rich practical experience in the foreign trade industry. After entering the university, she focused on the research of foreign trade related policies such as free trade zone, offshore trade, import and export commodity classification, rules of origin, customs tariff and RCEP, etc. She has been providing business consultation and business training for foreign trade related enterprises for a long time, and is good at teaching cases, which is well received by students.
