Event Description:

The poster hyperlink: <https://mp.weixin.qq.com/s/cRHZS9tw2RQsJpKpuBSsWg>

Event Name: Analysis and Exploration of Enhancing the Supply Chain Competitiveness of Specialized, Refined, Unique, and Innovative "Little Giant" Enterprises

Venue: online ; **Event No.** 25490 ; **Date & Time:** January 8, 2025; 20:00-21:30

Event Hours: 1.5h ; **Professional Development Points:** 1.5

Event Content

- The Importance of Focusing on the Supply Chain Competitiveness of Specialized, Refined, Unique, and Innovative Enterprises: The Development and Current Status of National Specialized, Refined, Unique, and Innovative "Little Giant" Enterprises and Why We Should Focus on Their Supply Chain Competitiveness
- Preliminary Establishment of the Supply Chain Competitiveness Index Model: Model Considerations and Establishment, Data Collection and Analysis
- Strategies and Prospects
- Q&A Session

Instructor Introduction

Dr. Xiong

- Formerly served as the Quality and Operational Excellence Manager and Chief Expert for the Quality and Supply Chain Internal Consulting Group (ICG) North Asia Region of the global business division of the Fortune Global 500 company ABB Group
- Scientist at ABB Corporate Research Europe, Senior Operations Expert and Senior Expert in Operational Excellence and Trainer at ICG Europe Branch
- Has extensive experience in the application of supply chain/value stream optimization, production control management, Lean management/Toyota Production System (TPS), and the integration of Theory of Constraints (TOC) with production management and optimization
- Dr. Xiong has successfully implemented advanced management methods in production, non-production, and supply chain management areas in dozens of factories worldwide, achieving outstanding results
- Based on years of theoretical accumulation and practical experience, Dr. Xiong has written the book "Towards Excellence: A Guide to Operational Excellence," which provides strong guidance for corporate operations and supply chain improvement practices
