Event Name: From DDMRP to DDOM (Demand Driven Operating Model) Practice Sharing

Venue: Online ; Event No. 25515 Date & Time: July 16th, 2025; 20:00-21:30

Event Hours: 1.5h ; Professional Development Points: 1.5

Event Content

- What are DDMRP and DDOM and what are their differences (briefly)
- Some practice cases of DDOM (manufacturing and distribution)
- Innovative cases of applicable methods for the DDMRP model
- Q&A Session

Instructor Introduction

Jianhang Ou

- Vice General Manager of Yamaha Motor (Xiamen) Information Systems Co., Ltd. and Deputy Secretary-General of Xiamen Torch Industry Federation.
- Rooted in production management innovation and informatization/intelligent development of discrete manufacturing enterprises.
- Spearheaded the development of key chain improvement activities of the Yamaha Information Xiamen TOCCPM project and the establishment of TOC solutions for production/distribution constraints.
- Organized public TOC training for SMEs and multiple enterprise study tours with Japanese TOC experts.
- Led R & D of manufacturing enterprise informatization products (ERP/MES) and new - generation technology architecture innovation.
- Headed the implementation of the enterprise - wide TQMS (ISO20000/ISO9001) and DDLP/DDPP certifications.
- Led the development of China's first DDI - certified DDMRP - compliant software A1 - Flexplanner.
- Volunteer translator for the Chinese version of the 3rd edition of "Demand - Driven Material Requirements Planning".
