Event Introduction

This webinar will provide an in-depth understanding of the overview of the three levels of supply chain planning, the target challenges and response methods of each level of the supply chain, and the impact of the current external environment on supply chain management.

Throughout the process, we will combine real-life case studies to help you better understand the challenges and response methods of supply chain crises in the real world, as well as prepare for future crises.

Instructor Introduction

Yi Ming

Mr. Yi Ming has nearly 15 years of experience in the field of supply chain. He is a supply chain product manager and supply chain consultant. At the same time, he is also a personal investor, small and medium-sized entrepreneur, and registered lecturer at APICS
