Event Name: Implementation Practice of Supply Chain Planning-RSCP

Venue: online ; Event No. 23426 ; Date & Time: August. 9th, 2023; 20:00-21:30

Event Hours: 1.5h ; Professional Development Points: 1.5

Event Introduction

Join us for a 1.5 hour webinar focusing on Implementation Practice of Supply Chain Planning-RSCP!

Excellent supply chain planning relies on three important elements: data, logic, and tools. The RSCP solution provides corresponding methods and solutions for these three elements.

The main tool of RSCP is an EXCEL based work template.

The advantage of Excel lies in integrating data logic and fast computation. Although it is not a specialized data storage database tool, it can utilize Excel's powerful linking function with external data to seamlessly connect with external data sources. We will reveal how Excel utilizes powerful data connection techniques to communicate with databases, networks, and other sources of data!

Instructor Introduction

Ye chen Lu

Mr. Lu is a senior supply chain management expert at SCOM and a co-founder of the development and application of intelligent EXCEL templates. He has served as the COO of European manufacturing enterprises and has over 25 years of rich experience in supply chain, procurement, and operations management.
