Event Description:

The poster hyperlink: <https://mp.weixin.qq.com/s/LeQSIQXt2oEcLxqKEAlCrg>

Event Name: Huawei Expert: Lean Supply Chain and Product Design

Venue: online ; Event No. 23433 ; Date & Time: September. 27, 2023; 20:00-21:30

Event Hours: 1.5h ; Professional Development Points: 1.5

Event Content

- 1) More Lean, Less Achieved: Limitations of Lean Production
- 2) Big Thunder and Little Rain in Digitalization: Problems Faced by Intelligent Manufacturing/Digital Supply Chain

上海史考姆企业管理咨询有限公司 上海市七莘路 1839 号财富 108 广场南座 2316 邮政编码 201101 电话 86-21-54281551

- 3) Scenario based supply mode: There is no best mode, only the most suitable one. Different supply chain modes are suitable for different scenarios, advantages and disadvantages
- 4) DFSC product supply design: Before being born, excellent genes are embedded to build a lean, automated, digital, and globalized first-class supply chain in product design. With a clean slate, problem-solving naturally achieves twice the result with half the effort, and it is natural.
- 5) Case: A certain product was designed through the integration of supply chain model and product, resulting in a one-year time cost reduction of half and a supply cycle reduction of half

Instructor Introduction

Shaowei Yin

He has 20 years of work experience at Huawei, serving as a manufacturing engineer, head of overseas local production, project manager for supply chain globalization and digital integration design change, head of manufacturing solutions department, core member of IPMT integrated product management team, and product supply chain director
