Venue: online ; Event No. 20282 ; Date & Time: October 21, 2020; 20:00-21:45

Event Hours: 1.5 h ; Professional Development Points: 1.5

### Event Introduction :

Cross-border supply relations have their particularities. The contracting parties usually have different legal concepts and different writing habits. Where disputes should be settled and by what rules they should be settled are also common in international procurement contracts. This workshop will provide clear guidance on how best to address these issues in international procurement contracts.

1. Selection of applicable laws and regulations
2. International arbitration clause
3. Conclusion of international sales contracts and international trade terms
4. Disclaimer in the context of international trade
5. Quality assurance and evidence preservation in international procurement
