Event Name：　　　　SCOR DS, Digital Capabilities Model (DCM) ,and ChatGPT

Venue：　online　；Event No.　23410　；Date & Time: Apr. 26, 2023; 20:00-21:30

Event Hours:　1.5h　；Professional Development Points：　1.5

Event Introduction

Join us for a 1.5 hour webinar focusing on the SCOR model, Digital Capability Model (DCM), and ChatGPT's interactive connections in Supply Chain Management. In the seminar, you will learn how to bring these three elements together to digitally transform your supply chain and improve your business performance.

This webinar will provide insight into the core components of the SCOR model and how to leverage its performance metrics and best practices to optimize supply chain management. Also, we will focus on the Digital Capability Model (DCM) and explore its key role in supporting the digital transformation of your organization. Finally, you will learn about ChatGPT's concepts, capabilities and its application in supply chain management to help you better leverage artificial intelligence technologies. Throughout the course, we will combine real-life case studies to help you understand more clearly how SCOR, DCM and ChatGPT interact and connect in real-world supply chain management. In addition, you will have the opportunity to participate in a panel discussion with your peers to share experiences and discuss how to achieve digital transformation in your organization.

Whether you are new to supply chain management or a seasoned expert, this workshop will provide you with unique insights and a hands-on approach. Let's learn, share and add to the digital transformation and supply chain optimization of your business together.

Instructor Introduction

Joe Yuan

Mr. Yuan Zhuo has nearly 20 years of experience in the field of supply chain of global Fortune 500 companies and many years of overseas study and training experience. He is a member of the expert group of the Multinational Procurement Center and a senior management consultant for many companies. He has helped more than 300 companies to complete diagnostic assessment and improvement program development. He was the procurement manager of Alfa Laval, the category manager of stainless steel in China, and the category manager of Atlas Copco in China, and one of the translators of the ASCM Enterprise Standards for Sustainability
