Event Description:

The poster hyperlink: https://mp.weixin.qq.com/s/B3eJ6_g1MhoRxoG7f-Mx-g

Event Name: How to Implement Logistics Network Optimization in Your Projects?

Venue: online ; Event No. 22391 ; Date & Time: Nov. 23, 2022; 20:00-21:30

Event Hours: 1.5h ; Professional Development Points: 1.5

Event Introduction

- 1) Logistics network optimization positioning & research content
- 2) Logistics network optimization implementation principles
- 3) Logistics Network Optimization Methodology
- 4) Logistics network optimization project implementation introduction
- 5) Network optimization experience and case sharing
- 6) Questions and answers

Instructor Introduction

Mick Zhao

Specialties:

- Specialized in logistics supply chain field, 15 years of work experience in logistics management and logistics optimization in large foreign companies and consulting companies, with a comprehensive and profound understanding of logistics supply chain in foreign and private enterprises, and rich experience in network optimization project management and implementation.
- Based on network optimization consulting projects in chemical, FMCG, pharmaceutical chain, 3PL and other industries, he has built a complete supply chain network optimization methodology system and formed a set of practical network optimization implementation path.
- High Score passing CPIM part 1-335, part 2-322.

Work / Education Main Experience:

- Shanghai Sumliao Consulting: Senior Consulting Manager, focusing on supply chain network planning and logistics management system optimization
- Bayer MaterialScience (Crestron): Supply Chain Center, working on logistics planning, logistics management, logistics procurement and process reengineering.
- Shanghai University of Technology: Master of Management Science and Engineering
