Event Name: DDMRP Landing Route Map and Pit Avoidance Guidelines

Venue: online ; Event No. 23424 ; Date & Time: July. 26, 2023; 20:00-21:30

Event Hours: 1.5h ; Professional Development Points: 1.5

Event Introduction

Join us for a 1.5 hour webinar focusing on the DDMRP Landing Route Map and Pit Avoidance Guidelines. DDMRP has been introduced to China by SCOM since the beginning of 2020, and has attracted a large number of scholars, consultants, and supply chain managers in the supply

chain field. Currently, dozens of people in China have passed DDPP certification, and more than a dozen have passed DDLP certification.

However, due to the complexity of the Supply Network, the differences in Supply&Demand Patterns, production and manufacturing strategies, and the varying length of manufacturing and procurement lead times, DDMRP has both successful and failed cases in China.

This online roundtable seminar was a very unique interactive discussion. SCOM club invited seven senior consultant teachers in the supply chain field (including DDMRP research learners, TOC consultants, supply chain management consultants, DDMRP project implementers, DDMRP software designers, etc.) to understand DDMRP from different perspectives and brainstorm key issues.

Instructor Introduction

Jianhang Ou

Current Deputy General Manager of Yamaha Engine (Xiamen) Information Systems Co., Ltd.
Deputy Secretary General of Xiamen Torch Industry Federation.

Xihua Cai

Consulting Consultant - Focusing on TOC promotion and practice in the fields of production, supply chain, and projects, with over 10 years of management experience in American factories, including production manufacturing, projects, and supply chain fields. Collaborating with lean experts stationed abroad to promote continuous improvement activities in factories.

Garwin

Benefit Enhancer - Established FMS focusing on management system theory and three benefits consulting, proficient in TOC and DDMRP, delving into lean, total quality management, and Six Sigma

Wenzhi Bi

Digital Intelligence Consultant of UFIDA Manufacturing Group

Yixiang Hu

Supply Chain Financial Analyst

Xiaoxi Li

我们助您创未来

Future Supply Chain Brand Manager, ASCM Association Certified Lecturer

Zhifeng Sun

Nanjing University retired teacher - DDPP&DDL, demand driven technology enthusiast and practitioner, expert member of the key laboratory of industrial Big data analysis and integrated application of the Ministry of Industry and Information Technology, and founder of iRAP technology.
