Event Description:

The poster hyperlink: <http://event.31huiyi.com/1988238062>

Event Name: Driving digital supply chain transformation for high-tech industry

Venue: online; **Event No.** 21291; **Date & Time:** January 06, 2021; 20:00-21:30

Event Hours: 1.5 h; **Professional Development Points:** 1.5

Event Introduction :

From semiconductors, component manufacturing, to sub-assembly and end products such as TV and mobile phones, High Tech industry has a very complex and probably the most unique supply chain in the manufacturing industry. Unexpected disruptions such as COVID-19, trade restrictions and port congestions are exposing high risks to high tech and Consumer Electronics supply chains. This is also validated by the decreasing (Purchasing Manager's Index) in most of the APAC countries.

1. Industry issues and challenge for Hi-tech
2. Value chain

3. Supply chain best practice
4. Manufacturing digital solution for Hi-tech
5. Successful story

Instructor Introduction

Anindya Bhattacharya

Director for Industry Strategy, Manufacturing, Blue Yonder APAC

Anindya Bhattacharya is responsible for directing and driving the Go-To-Market strategy across manufacturing industry in APAC including High Tech, Automotive, CPG and Industrial. Anindya plays a key role in orchestrating the outside-In perspective and Industry thought leadership across our key client engagement cycles.
