尊敬的各位领导人、代表们、女士们、先生们：

未来领袖的几点思考

非常荣幸能够在本次大会即将闭幕之际发言。过去几天里，来自各个领域的讨论充满了智慧与真诚。在这个即将闭幕的时刻，我一直在思考“未来领袖”这四个字。作为领袖，我们必须时刻思考未来，因为未来承载着我們人类所有的希望与光明。只有拥有未来，才能够为我们的地球、国民、以及全人类带来希望和繁荣。对于未来的敏锐感知和预判，正是未来领袖最突出的智慧。

未来的领袖不仅仅是应对眼前的挑战，更重要的是要具备对未来的洞察力，能够带领人民走向长期的幸福与稳定。一个优秀的领袖需要有精确的预判，敏锐的感知，并能够稳健地引领自己的国民走向更加美好的未来。这样的领导力不仅带来物质的繁荣，还能够不断创造出慈悲与祥和的氛围。

在这一点上，我国领导人提出的“人类命运共同体”理念，展示了深刻的远见与智慧。这个战略让我们认识到，整个人类实际上都生活在同一个小小的地球之上。随着全球环境和气候问题日益突出，比如珠穆朗玛峰的冰川退缩、河流干涸等问题，人类越来越意识到，我们只有一个共同的家园，那就是地球。地球的命运与我们息息相关，气候变化、环境危机已经不是某一个国家的独立问题，而是全人类共同面临的挑战，正如疫情所揭示的那样，没有任何人能够独善其身。“唇亡齿寒”，当地球或气候遇到重大灾难时，没有一个人可以独立于全球的命运之外。

我时常造访不丹，不丹是一个很小的国家，但它的幸福指数全球领先，这归功于第四世国王的智慧。他通过正念和慈悲的领导方式，将不丹打造为全球最环保、最和谐的国家之一。这位国王不仅能够稳定地治理国家，更能够用他的远见卓识，引领国民走向持续的幸福与繁荣。他的深刻洞察力和对未来的敏锐感知，正是一个真正伟大领袖的体现。

在座的每一位朋友，你们都是各自领域的领袖，无论是在科技、经济、哲学还是文学，每一个领域的领袖都肩负着引领未来的责任。领导力不分大小，每个人都在自己的行业中发光发热。一个优秀的领袖，不仅要具备慈悲、正念和觉知，还要不断培养对未来的敏感嗅觉、直觉能力和洞察力。只有看得更远，才能在未来十年、二十年，甚至百年、千年的时间维度中做出最智慧的决策。

历史上的伟大人物给了我们许多启示。佛陀以正念教导世人，传递慈悲与智慧。中国的老子千年前就教导我们顺应自然、无为而治。西藏的藏王松赞干布则通过智慧和战略，引领西藏走向繁荣与和平。每一个伟大的领袖，都拥有对未来深刻的洞察力，并且在长远的时间框架下做出了卓越的决策。

因此，作为未来的领袖，我们必须超越当下的局限，着眼于未来十年、二十年甚至更久远千百年的时间，去引领我们的领域做出有长远智慧的决策。这不仅是我们的责任，也是我们为世界带来光明与稳定的使命。

感谢大家的参与与贡献，祝大会圆满闭幕，未来更加光明！

谢谢大家。

Sure! Here's the translation of your speech into English:

Honorable leaders, representatives, ladies, and gentlemen:

It is a great honor to speak at this moment as our conference is about to conclude. The discussions over the past few days have been filled with wisdom and sincerity from various fields. As we approach the closing of this conference, I have been reflecting on the phrase "future leaders." As leaders, we must always think about the future because it holds all the hopes and brightness for humanity. Only by embracing the future can we bring hope and prosperity to our planet, our citizens, and all of humanity. The ability to keenly sense and predict the future is the most prominent wisdom of future leaders.

Future leaders are not only tasked with addressing current challenges but also need to possess the insight to guide their people toward long-term happiness and stability. An outstanding leader must have precise foresight, keen perception, and the ability to steadily lead their citizens toward a better future. Such leadership not only brings material prosperity but also continually fosters an atmosphere of compassion and harmony.

In this regard, the concept of “a community with a shared future for mankind,” proposed by our national leader, demonstrates profound foresight and wisdom. This strategy makes us realize that all of humanity actually lives on this small planet together. With the increasing prominence of global environmental and climate issues, such as the retreat of the glaciers on Mount Everest and the drying up of rivers, humanity is becoming more aware that we have only one common home: Earth. The fate of our planet is intertwined with ours; climate change and environmental crises are no longer isolated issues for any one country, but challenges faced by all humanity. As revealed during the pandemic, no one can remain unaffected. The saying goes, “When the lips are gone, the teeth will feel cold,” illustrating that when the planet or climate faces significant disasters, no one can stand apart from the global fate.

I often visit Bhutan, a small country, but it ranks highest globally in happiness. This is thanks to the wisdom of its fourth king. Through mindful and compassionate leadership, he has transformed Bhutan into one of the most environmentally friendly and harmonious countries in the world. This king not only governs the country stably but also uses his visionary insights to guide his citizens toward lasting happiness and prosperity. His profound insight and sensitivity to the future exemplify the essence of a truly great leader.

Each of you here today is a leader in your respective fields, whether in technology, economics, philosophy, or literature. Leaders do not differentiate between size; everyone shines in their industry. An excellent leader must possess compassion, mindfulness, and awareness, while continuously cultivating sensitivity to the future, intuitive abilities, and insight. Only by looking further ahead can we make the wisest decisions over the next ten, twenty, or even one hundred and one thousand years.

Historical figures have given us many inspirations. The Buddha taught people with mindfulness, conveying compassion and wisdom. Laozi taught us to follow nature and practice non-action thousands of years ago. The Tibetan king Songtsen Gampo led Tibet to prosperity and peace through wisdom and strategy. Every great leader possesses deep insight into the future and has made remarkable decisions within a long-term framework.

Therefore, as future leaders, we must transcend the limitations of the present and focus on the next ten, twenty, or even hundreds of years to lead our fields in making long-term wise decisions. This is not only our responsibility but also our mission to bring light and stability to the world.

Thank you all for your participation and contributions. I wish the conference a successful conclusion and a brighter future ahead!

Thank you!
