

定制加热垫

产品特点

采用环保材料，表面安全不带电
绝缘性能好，抗化学腐蚀
升温较快，加热均匀
安全，耐磨，安装方便
符合ROHS, 有UL /CSA认证

参考参数

240VAC INPUT

定制尺寸：900x1500范围内规格定制，可以根据客户要求设计生产各种不同形状，大小

材质：镍铜，PI,PET,硅胶

厚度：0.8mm~2mm

功率：180W

电压：240VAC INPUT

频率：60Hz

功率，电压可根据客户要求设计

阻燃等级：UL94V0

UL档案号：E514413

我们非常荣幸的推出捷卡定制加热垫，该加热垫旨在直接将点热传递到热源。加热垫可满足多种应用。并且耐酸，耐磨，防潮，耐化学腐蚀，可以根据客户需要进行定制。

应用领域

UPS, 电池柜，汽车电池，汽车靠背，座椅，汽车玻璃化雪，防雾，防冻保护

Customized Heating Pad

Product Features

Providing faster temperature rise, even heating, wear resistance, and easy installation. Our product offers good insulation and chemical resistance. The surface is also safe without electricity. We utilize environmentally friendly materials that comply with ROHS and are UL/CSA certified.

Reference Parameters

240VAC INPUT

Customized size: customized in the range of 900x1500, we can design and produce various shapes and sizes according to customer requirements

Material: Nickel copper, PI, PET, Silicone

Thickness: 0.8mm~2mm

Power: 180W

Voltage: 240VAC INPUT

Frequency: 60Hz

Power and voltage can be designed according to customer requirements

Flame retardant level: UL94V0

UL file No:E514413

Ideal Jacobs is pleased to introduce our newly Customized Heating Pad, which is designed to provide spot heat directly and quickly to source. It can be used for multiple applications. Acid, abrasion, moisture, and chemical-resistant options and customizable to almost any need.

Application Area

UPS, battery cabinet, car battery, car backrest, seat, car glass snow, anti-fog, anti-freeze protection.
