

Outdoor Graphic Labeling Solutions

Durability, Consistency and Reliability.

Durable and consistent outdoor weather-resistant properties incorporating decades of experience in outdoor applications.

Specially formulated inks to meet multiple outdoor conditions. Durable Substrates offer resistance to ultraviolet rays and have excellent performance to maintain the color consistency as well as identification of the printed content in outdoor applications. Self-adhesives labels can meet the demand for long-term applications on curved outdoor surfaces. Outstanding outdoor weather-resistant functions alleviate worries of frequent product replacement. More economic and environmental friendly.

Key Features & Benefits

- Multiple colors
- Tough
- Reliable
- Environmental friendly
- Cost-effective

Applications

- New energy equipment
- Charging stations
- Wind power generators
- Outdoor power cabinets
- Outdoor vehicles

.....

Outdoor Products Properties

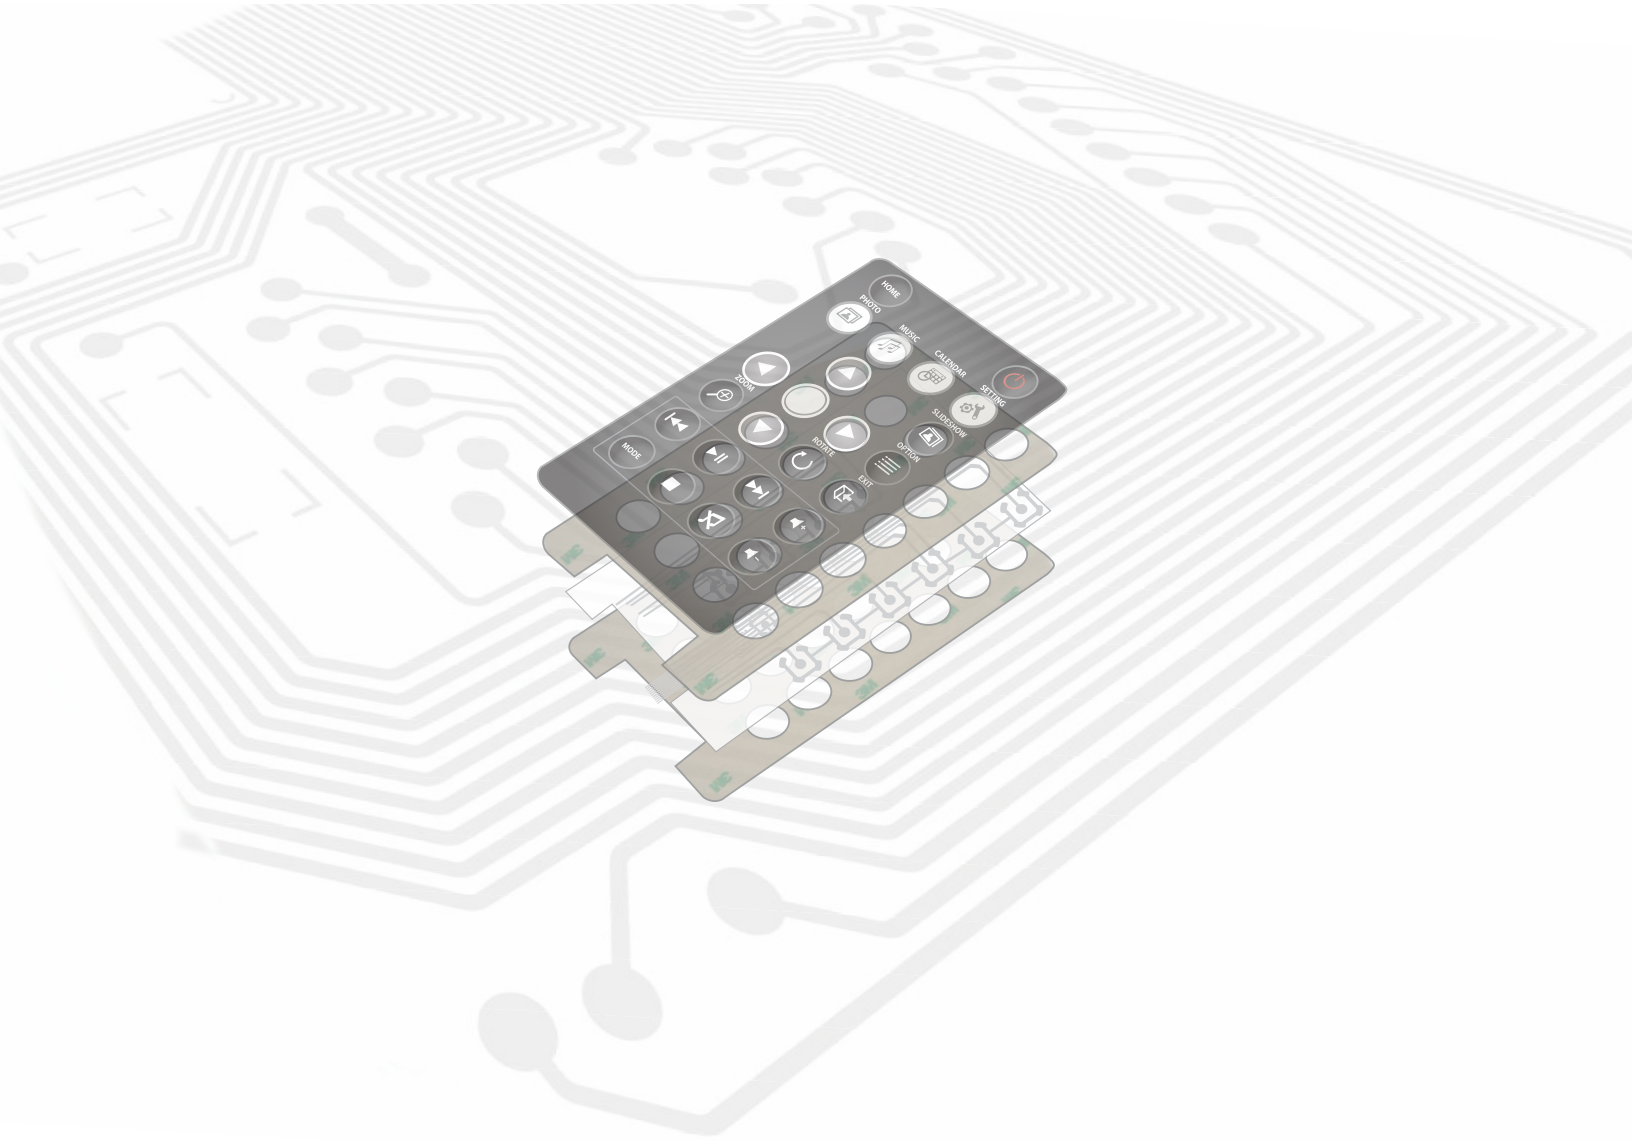

Properties/Products	Overlays/Nameplates	Labels
Outdoor UV Resistance	1600H	1600H
Circulation Test -40°C~85°C	240H	72H
Thermal and Humidity Test 85°C and 85% RH	72H	72H
UL Certifications	UL969 PGDQ2	N/A
Flame Resistance	UL94 VTM-2, V2, VTM-0, V0	N/A

* Outdoor UV Resistance: The surface shows no signs of aging, cracks, or significant color changes in referenced hours.

* Circulation Test -40°C~85°C: The surface is free of bubbles, wrinkles, shrinkage, cracks or embrittlements or significant color changes in referenced hours.

* Thermal and Humidity Test 85°C and 85% RH: The surface is free of bubbles, wrinkles, shrinkage, cracks or embrittlements or significant color changes in referenced hours.

*Compared with overlays and nameplates, labels are more flexible and more fit on curved surfaces.
